

Viewing video submissions that have been uploaded to Re:View

Before viewing video submissions, ensure that you [close the Re:View assignment folder](#) when ALL videos have been uploaded. This prevents any further student uploads. Once closed, this cannot be undone.

There are two ways to view video submissions that have been submitted in Re:View.

Option 1 – View in directly in Re:View

The screenshot shows the Re:View web interface. The browser address bar is highlighted with a yellow box, showing the URL <http://go.bath.ac.uk/review>. The interface includes a search bar, a navigation menu on the left, and a main content area. The 'Browse' button in the navigation menu is highlighted in yellow. The main content area shows a list of folders under 'All Folders'. The folder 'dev_tsc: tom's sandbox course' is highlighted in yellow. Below this, the folder 'Dev_TSC: Tom's Sandbox course [assignments]' is also highlighted in yellow. The bottom part of the screenshot shows the folder 'Dev_TSC: Tom's Sandbox course [assignments]' selected, with a search bar and a 'Create' button. The main content area shows a video submission titled 'Cat - 9328' with a thumbnail and the text 'a month ago'.

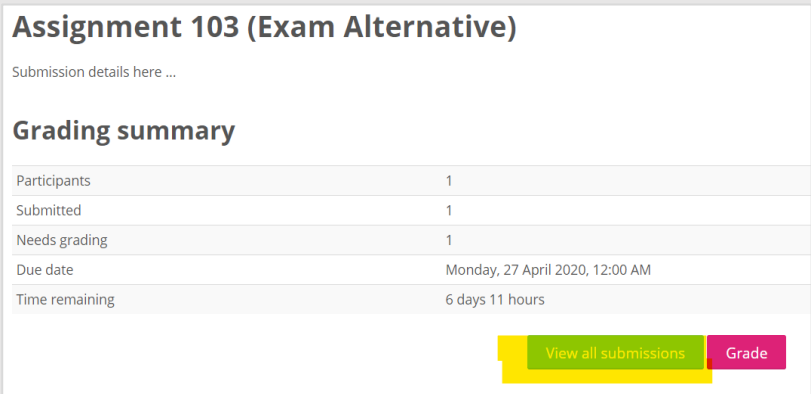

- In the address bar of your browser type <http://go.bath.ac.uk/review>
- Log into Re:View with your University of Bath username and password.

- Click 'Browse.'
- Type in the name of the course – this will typically be the name of the Moodle course followed by [assignments]. E.g. Tom's Sandbox course [assignments]

- Press 'Return' on your keyboard and select the course from the list.
- Alternatively, click 'My folders' and scroll down to find the folder in the list.
- Click on the folder.

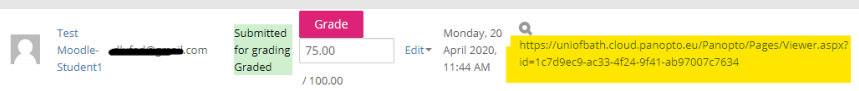

- This will take you directly to the folder in which you can view all student submissions.

Option 2: View via the Moodle submission point

Grading summary

Re:View

Video play is disabled in your web browser. Press play to start.

- In Moodle, select the relevant submission point.
- Select **View all submissions**.
- Scroll across to view a submission
- Select the link to a video submission URL for a chosen student.
- Highlight and copy the link.
- Paste the link into the address bar of your browser.
- Log into Re:View with your University of Bath username and password when prompted.
- You can now view the video submission for the chosen student.

Further guidance for viewing video submissions

Further guidance is available on the CLT Hub.

- [Re:View \(Panopto\) staff guidance](#) and scroll down to the *Re:View for student assignments* section.
- View the screencast video [How to access video submissions in the Re:View assignment folder](#).

Further guidance for marking video submissions

As it is not possible to mark and comment on a video submission in the same way you can with a file in Moodle, there are several ways alternative ways to mark video submissions using a Moodle submission point. We recommend either:

- Offline marking/feedback (takes place outside of Moodle).
 - Download grading worksheet.
 - Add marks and optional feedback comment.
 - Store on x:drive.
 - Re-format for upload to SAMIS
- Mixed marking/tracking/feedback (some inside Moodle, some outside).
 - Download grading worksheet.
 - Add marks and optional feedback comment.
 - Upload back to Moodle.
 - Transfer to SAMIS.

For further details about how to mark alternative assessment in Moodle this [please refer to the information on the CLT Hub](#).
